

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

The screenshot shows the ALEKS interface for a math problem. The title is "Addition or subtraction of fractions with the same denominator". The problem asks to add $\frac{3}{9} + \frac{5}{9}$. A yellow box says "Read this explanation carefully." Below the problem, text explains that both fractions have the same denominator (9) and that to add them, the numerators are added while the denominator stays the same. The calculation is shown as $\frac{3}{9} + \frac{5}{9} = \frac{3+5}{9} = \frac{8}{9}$. The answer is given as $\frac{8}{9}$. A red arrow points to the explanation with the text "Explanation of New Concept". At the bottom, there are three circular diagrams representing the fractions and their sum, and a "Practice" button.
